## WIRELESS PRESENTATION

Wireless presentations allows meeting participants to easily share the content on their laptop device at the click of a button on a wireless dongle.

Some solutions can cater for multiple screens at once, split screen, video conferencing meetings, mobile device sharing and more.

[CLICK TO VIEW OUR SOLUTIONS](#)

## AV CONTROL SYSTEMS

An AV control system streamlines operation by replacing multiple remotes and buttons with a simple interface, ranging from basic wall controls to custom touchscreens. It can also automate lighting, blinds, and power-off functions to improve efficiency and reduce energy costs. Our AV Control Systems are tailored to each clients specific requirements.

## ACOUSTIC TREATMENT

Acoustic treatment in boardrooms reduces reverb from hard surfaces, making speech clearer and improving communication. This is especially important for video conferencing, where poor acoustics can distort audio and make it hard to follow conversations.

## DIGITAL SIGNAGE SOLUTIONS

Create and schedule digital signage in minutes using the easy-to-use Fusion Signage content management system. Display updates like client services, KPIs, staff birthdays, and more across various screen sizes and mounting options, including wall-mounted, window displays, or mobile trolleys.

Fusion Signage allows you to switch between content and set schedules for specific days and times.

[CLICK TO VIEW OUR SOLUTIONS](#)

## OFFICE AUDIO & PAGING SYSTEMS

Our comprehensive audio solutions include **Office Background Music systems** that create a pleasant work environment through subtle, high-quality sound.

For larger spaces, our **Warehouse PA and Paging Systems** ensure clear communication across the entire facility, ideal for announcements and staff coordination. We also integrate **Alert and EVAC systems** that meet safety regulations, providing reliable, automated messaging in the event of an emergency to ensure swift and orderly evacuations.

## ACOUSTIC TREATMENT

Acoustic treatment helps reduce noise and reverb caused by hard surfaces, particularly in spaces like open plan areas, lunch rooms and large training rooms.

In shared spaces like lunchrooms and open offices, acoustic panels can minimise disruptive noise, making it easier for employees to focus and communicate.

[CLICK TO VIEW OUR SOLUTIONS](#)

## ACOUSTIC OFFICE PODS

Acoustic booths enhance corporate offices by providing quiet, private spaces for focused work, calls, or meetings—reducing noise and boosting productivity.

They also support flexible work arrangements and contribute to employee well-being by minimizing distractions and stress.

The pods can be equipped with displays and video conferencing systems for ready to go meeting pods.

## PA & AUDIO SYSTEMS

We offer a range of custom designed PA systems suitable for churches. We work with you to ensure you have the correct equipment for what you require as we are aware each house of worship has different requirements from one another.

Within a church it is imperative that your congregation is able to clearly hear your message regardless of the ceremony.

[CLICK TO VIEW OUR SOLUTIONS](#)

FROM  
**\$4,995**

## PROJECTION SYSTEMS

Projection systems serve a variety of purposes in a church setting. They can display live video of events happening at the front for those seated further back, as well as show hymn lyrics, prayers, congregational responses, or even, for presenting slideshows, images, or videos during services and special events.

We understand that multiple people may need to operate the AV equipment, so ease of use is essential. That's why we recommend a simplified control system as easy as a single On/Off button—designed for maximum impact and minimal complexity.

[CLICK TO VIEW OUR SOLUTIONS](#)

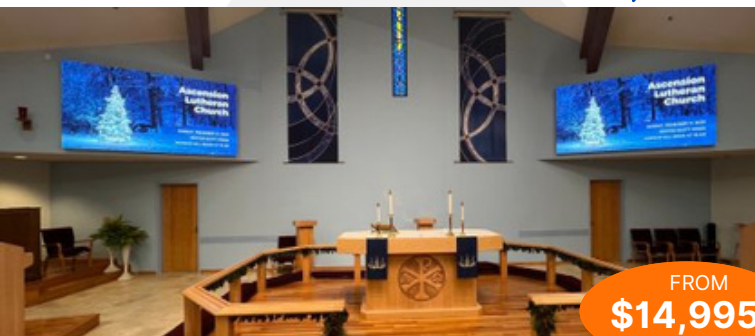

FROM  
**\$5,995**

## LED SCREENS

LED screens offer a powerful and engaging way to share your message with the congregation. Ideal for sanctuaries, worship halls, and outdoor services, our LED systems ensure exceptional visibility, brightness, and clarity—even in direct sunlight. Whether you're displaying song lyrics, live video, or announcements, each installation is custom-designed to suit your church's unique space and needs.

### DIGITAL SIGNAGE

Digital Signage is a great way to show off your **menu, food specials, any new restaurant updates**. With the Fusion signage system you can have your screen flick between your menu options or choose to schedule different menu options at different times E.g Breakfast menus or dinner menus. You can also schedule your menu specials to only display on your Restaurant digital signage screen on certain days and times.

Digital signage screens can come in a range of sizes and some screens can go in portrait mode as well as landscape. Screens can be installed in a range of areas including wall mounted screens, window displays on a fixed floor pole, mobile trolleys and more.

[CLICK TO VIEW OUR SOLUTIONS](#)

### AUDIO AND PAGING SYSTEMS

3 Monkeys AV specialises in microphone paging and background music systems for restaurants, bars, and cafes. Whether you need a mic to call out orders or make announcements, we offer both wired and wireless solutions tailored to your venue.

Our commercial-grade systems are designed for reliability and ease of use in busy environments. We handle everything—from design and installation to staff training.

We also provide high-quality background music systems that create the perfect atmosphere, with zone control options for areas like beer gardens, dining rooms, or entrances.

### LARGE LED SCREENS

Elevate your venue and enhance the atmosphere with our high-definition LED screens, perfect for pubs, bars, and hospitality spaces. Designed to captivate and engage, these screens offer vibrant, crystal-clear visuals that transform any setting—whether you're showing live sports, hosting themed nights, or creating an unforgettable customer experience.

With outstanding brightness, wide viewing angles, and seamless installation options, our LED screens ensure every guest has the best seat in the house, no matter the time of day or lighting conditions. Let your venue stand out and keep patrons coming back for more.

[CLICK TO VIEW OUR SOLUTIONS](#)

### ACOUSTIC TREATMENT

When people go out for a meal, a common issue is the volume of a venue and this issue can unfortunately be the deciding factor in whether the customers will return or not.

Acoustic Treatment is a cost effective way to improve the sound environment of your venue. We can custom design and install a solution best suited for your venue. We offer both ceiling cloud panels as well as fabric covered acoustic panels that can be simply mounted on the wall of your venue for high performance sound absorption.
